PROFESSIONAL SUMMARY

Data-focused IT professional currently working as a Data Associate at Amazon, with hands-on experience in data validation, operational analysis, and quality-driven workflows. Skilled in SQL, Python, MySQL/PostgreSQL, data cleaning, and reporting, with a BCA in Computer Applications (CGPA 8.7) and internship experience translating business requirements into analytical insights.

TECHNICAL SKILLS

Programming: Python, SQL

Data Analysis: Data Cleaning, Exploratory Data Analysis, Data Visualization, Pandas

Databases: MySQL, PostgreSQL

BI / Reporting: Power BI, Excel

Business Analysis: Requirements Analysis, KPI Analysis, Process Improvement, Reporting

Tools: Git, GitHub

PROFESSIONAL EXPERIENCE

Amazon — Data Associate

Hyderabad, Telangana | Sep 2026 – Present

- Performed data validation and quality checks across high-volume operational data to identify discrepancies and maintain accuracy against defined business rules.
- Analyzed operational data and recurring trends to support accurate reporting and process improvement.
- Collaborated with cross-functional teams to resolve data discrepancies and maintain consistent workflow quality.
- Maintained high accuracy and productivity while processing time-sensitive data in a structured, metrics-driven environment.

Sutherland Global Services — Associate, Intern

Chennai, India | Jan 2026 – Feb 2026

- Analyzed operational datasets across 50+ daily cases to identify inefficiencies, supporting a 15% improvement in reporting accuracy.
- Collaborated with cross-functional teams to translate business requirements into actionable technical insights, maintaining 99% task accuracy.
- Resolved real-time operational issues within defined turnaround times, applying structured troubleshooting to maintain workflow continuity.

PROJECT

E-Commerce Sales & Customer Analytics

SQL, Python, Pandas, Power BI

- Cleaned and transformed a multi-thousand-row sales dataset using Python/Pandas, handling missing values, duplicates, and inconsistent formats.
- Wrote SQL queries using joins, aggregations, and filtering to analyze sales, customer, and product performance.
- Built a Power BI dashboard tracking KPIs such as revenue, orders, average order value, and category performance.
- Identified actionable insights from sales and customer trends, highlighting opportunities for revenue growth.

CERTIFICATIONS

SQL Certification – HackerRank | Python Certification – HackerRank | Data Analytics Certification – Great Learning

EDUCATION

SDHR Degree College — Bachelor of Computer Applications (BCA), CGPA: 8.7 | 2023–2026
