PROFESSIONAL SUMMARY

Entry-level IT professional with a strong foundation in data structures, algorithms, and backend development, including hands-on experience building REST APIs with Java and Spring Boot. Skilled in SQL, Python, and relational database design, with practical exposure to troubleshooting, data handling, and cross-functional collaboration through an operations internship. Comfortable working across software development, technical/application support, and data-oriented roles.

TECHNICAL SKILLS

Languages: Python, Java, SQL

Core: Data Structures, Algorithms, OOP, DBMS

Backend: Spring Boot, Spring Data JPA, REST APIs

Databases: MySQL, PostgreSQL

Tools: Git, GitHub, Linux, Docker, MS Office

EXPERIENCE

Sutherland Global Services - Associate - Intern | Jan 2026 - Feb 2026 | Chennai, India

- Analyzed operational datasets across 50+ daily cases to identify inefficiencies, supporting a 15% improvement in reporting accuracy.
- Collaborated with cross-functional teams to translate business requirements into actionable technical insights, maintaining 99% task accuracy.
- Resolved real-time operational issues within defined turnaround times, applying structured troubleshooting to maintain workflow continuity.

CodSoft - Java Developer Intern

- Debugged and resolved 20+ code-level issues during development, applying root-cause analysis to identify and fix defects.
- Collaborated with a peer team to test and refine 5+ core application features, ensuring consistent functionality and quality standards.

PROJECTS

CivicCare - Emergency Support Platform (Java, Spring Boot, Spring Data JPA, MySQL, REST APIs) - github.com/1amgiri/civiccare

- Built a backend-driven emergency support platform with 5+ modules to streamline blood donation requests and emergency service coordination.
- Developed 10+ REST API endpoints for donor registration, blood request creation, and location/blood-group-based donor retrieval.
- Implemented a layered Controller-Service-Repository architecture using Spring Boot and Spring Data JPA for reliable data persistence.
- Added structured API responses, input validation, and exception handling, resolving 15+ functional issues during testing.

Free Degree Library (HTML5, JavaScript, PHP, MySQL) - github.com/1amgiri/Degree-Library

- Built a full-stack platform with 8 core modules for UG/PG students, including upload, search, and community forum functionality.
- Engineered a PHP API layer and implemented an admin dashboard with brute-force login protection against unauthorized access.
- Designed a 5-table MySQL schema to manage file records, forum comments, and tag-based search.

ACHIEVEMENTS & CERTIFICATIONS

- Solved 100+ Data Structures & Algorithms problems on LeetCode and HackerRank
- SQL Certification - HackerRank
- Python Certification - HackerRank
- Data Analytics Certification - Great Learning

EDUCATION

SDHR Degree College - Bachelor of Computer Applications (BCA) | CGPA: 8.7 | 2023 - 2026
